

How Can I Support the Created for Community Campaign?

We have been sharing the vision of this campaign throughout the Spring. You have seen the vision, the models and renderings, and now is the time to act. We ask that you join us in prayer and service, as we

take this leap of faith forward. We also ask that you prayerfully consider your financial investment towards this exciting time in the life of our church.

The Goal of this campaign is to raise
\$3.5 Million
over the next 3 years.

Please prayfully consider how you can be a part of Building this Community, and bring your Commitment Card to Worship on
May 4th.

What about my regular tithe?

During this campaign, our church will still be working hard and operating as normal. We will still have Worship Services, special music, kids and adult programs and more. We are not slowing down! Because of this, we ask

that your 'Community' gift and commitment be above and beyond your regular tithes and offerings. This way, the vital ministries of our church will be able to continue impacting our Community, our city and the world.

We are so excited about this campaign...

"What a wonderful season in the life of our church! We are thrilled to be part of a campaign that honors the past, present and future of our amazing congregation."
- Shannon and Paul Cunningham

"The Children's Wing has seen few changes since long ago when our kids attended the Preschool and Sunday School. Improving SunHouse is vital to maintaining a safe haven during the critical teen years. These upgrades are necessary and long overdue."
- Randall and Ginger Christison

"I am so excited about our new campus enhancements. To have an elevator to the second floor, and classrooms that enrich our children's experience is fantastic. A more open inviting courtyard and Sanctuary that welcomes large groups, and flexibility for us as well as an improved Organ, to further showcase our music, completes the package. I know the Lord is at work."
- Jan Magot

"This is the first building campaign in all my years of membership, which I am truly excited about. I can't wait to see these welcome improvements take place here at LJPC."
- Elsie Land

"God's house must be welcoming, relevant and adaptable, and it must facilitate His work here in the Community. It is an honor to give back to our Church family in a way that makes this possible."
- Rick and Leslie Evans

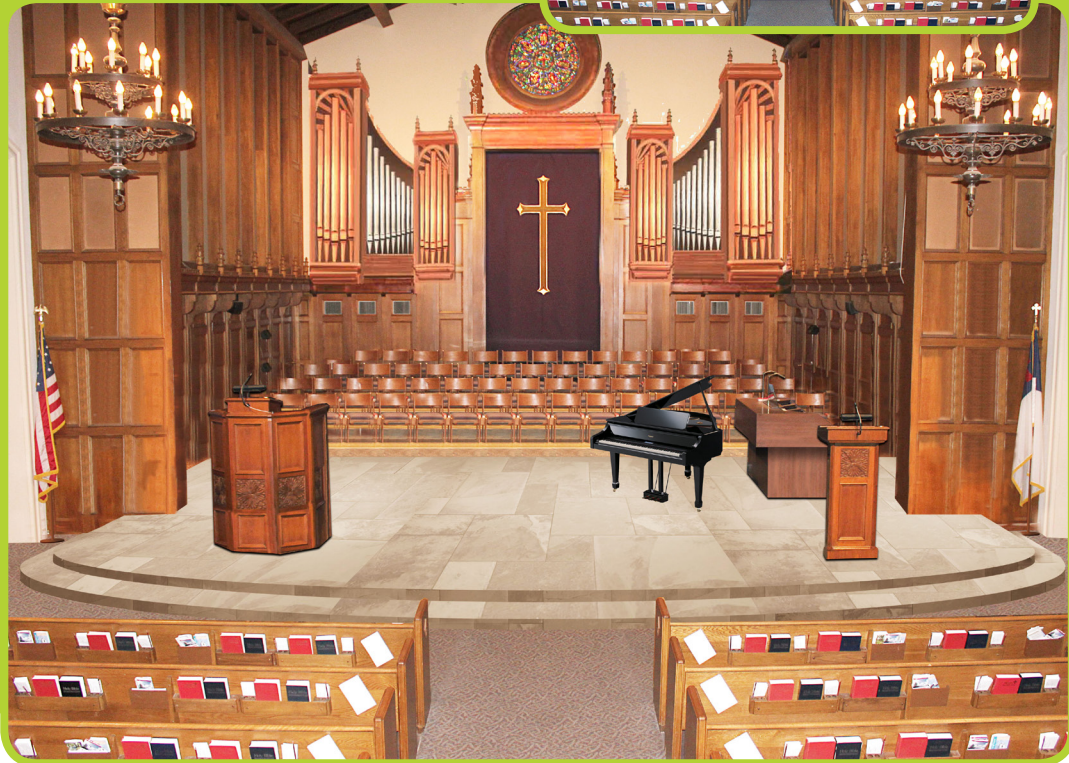

"With two kids going to the Preschool, we are very excited that they will have a better functioning and updated environment. This is a well overdue upgrade to our Preschool, benefitting our two children, their school mates, and future generations."
- Andy and Courtney Irwin

"A ramp on Draper will make accessing the Children's Wing so much easier for parents with strollers; and accessing the back of the sanctuary for those with wheelchairs or who have trouble with stairs."
- Ali Murphy

"The Organ is in desperate need of repair and the stage which was built for one time use 15 years ago is still being used every month."
- Dr. Keith Petersen

And now it's time to add your voice to the Community...

Sanctuary & Pipe Organ

Greater Flexibility. With all the groups and arrangements that use the Sanctuary, we need a space which can be put together in as many configurations as possible. Expanding the floor and making the pulpit, lectern and Organ movable will create a space that will work for any choir, ensemble or group.

Better Sound. A more open space and moving the pipes to the wall, facing the congregation, will dramatically improve the acoustics and sound presentation of both Sunday Worship, as well as special events and concerts.

Maintaining the Pipe Organ. The bellows, pipes and hoses that make up the Pipe Organ have a limited lifespan. They are now almost 30 years old, and in need of repair.

Preserving the Beauty of the Sanctuary. We all cherish the beauty and majesty of our Worship space, and want to maintain an inspiring look. The proposed design keeps the best parts of the church and, in addition, maintains the style and traditions.

Children's Wing

Access from Draper Ave. Preschool access with a stroller, now requires cutting through the Sanctuary. Installing a ramp on Draper, will allow for easy access to our Children's Wing, as well as to the rear of our Sanctuary.

Access from Fellowship Hall. Many young families, who worship at the 10:00am Service, make the dangerous dash through the back ally to reach the Children's Wing. A new entrance will be created from the courtyard allowing children and their parents safe and easy access to the children's wing.

A Fresh Look and Modern Feel. All of the Preschool classrooms and Sunday School classrooms will be renovated and new classroom furniture will be added as needed. This has not happened in 20 years.

An Elevator to the Second Floor. An elevator will be added on the south end of the Children's Wing. You will then be able to access the second floor Sunday School classrooms with your strollers.

Courtyard & SunHouse

Knocking Down Barriers. Opening up and connecting the upper and lower courtyard will create a more welcoming space for conversation and community. New furniture and a more open plan will allow for people to be able to see each other across the church campus, and share in life together.

Sit and Relax. The Press, our coffee cart, will move onto the courtyard and our hope is that the courtyard becomes a hub, where people connect and live out the values of caring for one another.

Connecting with SunHouse. We will add wheelchair and stroller accessibility to our SunHouse, which is the area used for our Junior and Senior High Ministries. A bridge will connect the administration building with the SunHouse.

A Path to the Children's Wing. Expanding the path from the courtyard to the new Children's Wing entrance, will keep our kids safe from alley traffic.
